MOVAWALL

Skywall

Skywall gives the flexibility of dividing a room into a separate space for any purpose at the touch of a button. A key advantage over conventional systems are no obtrusive stacking arrangements.

Overview

Simply press the button and partition sections glide gently downwards from the ceiling into position and form an attractive and effective partition between rooms. To retract, simply push the button and the Skywall's unique design withdraws the system into a hidden compartment in the ceiling void, removing the system from view.

- Top-hung, individual panels
- Fully electric operation
- Sound reduction up to Rw 62dB
- Vertical lift system
