MOVAWALL

Type 200

Movawall Type 200 is a sliding folding partition system of purpose made flat panels hinged together, to slide and fold to one or both sides within an alternative opening. Available primarily as a floor supported bottom roller system or as a top hung alternative option.

Overview

Panels have extra stability by means of a locking arrangement. Each alternate panel contains an espagnolette bolt mechanism operated via a detachable handle at a convenient height from the floor. The locking pin engages the floor rail and top track to ensure the panels close flat, flush and are rigid. The leading panel in the opening can be used as a full height pass door if required. Pass doors have flush pull handles and roller catch fitted; a lock can also be fitted.

- Continuously hinged panels
- Floor supported or top hung
- Sound reduction up to Rw 52dB
- Multiple stacking options

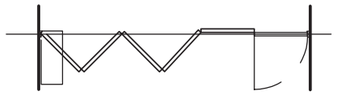

Features

Height: Up to 6,000mm high depending on weight
Panel Width: Upto 900mm
Sound Reduction: Up to Rw 52dB
Panel Thickness: 80mm
Suspension method: Floor supported with top guide or top hung
Operation Mode: Manual
Panel Type: Hinged
Seal Type: Fixed top and bottom sweep strips
Panel Construction: Aluminium frame
Panel Weight: Up to 42kg/m2
Fireproof Qualities: Class 1, Class 0, F30, F60
Pass Door Panels: Full height only single or double
Usage: Internal
Panel Edges: Exposed SAA or powder coated
