Overview

Each panel consists of two adjacent panes of glass, which guarantee superior sound insulation, an incredible Rw47dB. Regardless of this innovative feature, the wall operates in the same way as our other folding walls. The acoustic glazed folding partition consists principally of glass with a choice of frame made from either natural anodised aluminium or black anodised aluminium.

- Continuously hinged glazed panels
- Floor supported
- Sound reduction up to Rw 47dB
- Enfold stacking

Features

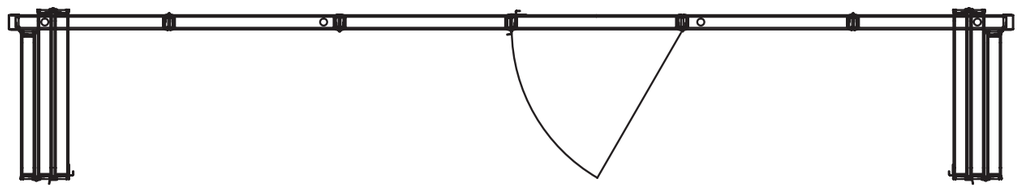

Height: Up to 3,000mm
Panel Width: Upto 950mm
Sound Reduction: Up to Rw 47dB
